**Subject:** East Tabor Avenue Sidewalk Gap Closure Project; Response to CTC Caltrans to Complete ATP Funding Application

**Gentlemen:**

The following is our proposal to assist the City of Fairfield with completion of the ATP funding application for the East Tabor Avenue Gap Closure Project. Based on the December 21, 2106 e-mail the City received from Mr. Ted Davini, the following are support documents / information we understand are needed by the City to complete the funding application per CTC 2017 ATP Guidelines

- **Prepare PSR-Equivalent**

KASL will prepare a Project Study Report (PSR) in accordance with CTC Resolution G-99-33. The PSR shall include an analysis of alternatives, summary of environmental and hazardous material issues, preliminary plans and estimated costs. We will review with the City the tentative delivery schedule, especially in light of the easements needed to construct East Tabor Sidewalk Gap Closure Project improvements within the UPRR Right of Way.

- **Provide Cross Sections**

Cross sections are included on the improvement plans prepared for the East Tabor Avenue Sidewalk Gap Closure Project. We have supplemented these cross sections with additional sections which we will submit to the City for your response to Caltrans.

- **Updated Quantity and Cost Estimates**

Updated quantity and cost estimates consistent with the current, proposed, design are being prepared and will be submitted to the City in response to CTC.

- **Submit PSR Level Project Plans**

We believe that the current preliminary improvement plans prepared respond to this request.

We will provide the City with the above documents and supplemental information for a proposed fee of \$6500. We understand that the City's

CIVIL  
WATER RESOURCES  
SURVEYING

response to Caltrans is due January 20. We will provide the City with a draft of the PSR, cross sections, cost estimates and updated plans on or before January 13. We hope that this proposed fee and schedule is acceptable to the City. We will coordinate with you the City's response regarding delivery schedule and ATP eligible costs comments.

Very truly yours,

KASL Consulting Engineers
